Ron will tell DRP that 15-16 trucks will show up

Ron asked for \$50 per truck for tow money

Plover does not have room for a fourth date

141 will be willing to work with the club in the future, just not this year

Ron asked about the Red White and Blue series at the FRRC meeting

This year the club will not run the Red White and Blue series

Volunteers for tech inspecting were asked for
Joe Plutz volunteered

The Tech inspectors as of now are Joe Plutz and Brandon Kucksdorf

TRANSPONDER RULES

Ron Magdanz asked the club what to do if a transponder doesn't work
He said the FRRRC doesn't score a truck if the transponder doesn't send a signal
Josh pointed out that track rules supersede the club rules
Jerry Quella said that if it is obvious where the truck finished they should be given the points for that spot
Rob Vanderboss said that last year he struggled to get the FRRRC to change the finishing order one night last year, due to a transponder problem
It was agreed that **Transponder discrepancy will be up to the officers on a case by case basis. If the officers can not prove the finishing spot of a truck, the truck in question will receive last place points.**
